Sample monthly report *— Representation*

BRAND Maison Vellune, fictional house MARKET Dubai PERIOD month 4 of the representation

WRITTEN BY Zacharie Courie, Scena Growth

A commitment on the work done, never a promise of volume.

00 · THE MONTH AT A GLANCE

Every month, the brand receives this report: the work done against what was agreed, what we observed, the difficulties, next month's plan and the decisions that are the brand's to make.

1 **The work done**	6 activity commitments out of 9 met or exceeded; 3 below target, each explained: a meeting postponed by the buyer, gift sets held up by a stock-out, a creator who moved her post.
2 **What we observed**	11 orders from 6 points of sale, including 4 reorders. The amber accounts for 54% of bottles ordered.
3 **The difficulty of the month**	The 100 ml amber out of stock at the logistics partner for 9 days: two reorders delivered late, 12 gift sets not placed.
4 **Next month**	Priority to reorders and the department store's postponed meeting; two extra in-store days to approve for the gifting season.
5 **Three decisions for the brand**	A safety stock of the amber; two extra in-store days; the response to an online reseller selling below the retail price.

PLEASE NOTE

Maison Vellune is a fictional brand: the points of sale and figures are invented to show the shape of the report delivered each month.

01 · THE WORK DONE

The work done, *against what was agreed.*

Every month, the same table: what the scope planned, what was done, and the reason for each gap.

ACTIVITY	PLANNED	DONE	GAP	WHAT TO KNOW
Point-of-sale visits	24	26	ABOVE · +2	14 stores visited, 3 of them new. One report per visit.
Buyer meetings	6	5	BELOW · −1	The department store postponed to next month, at its request.
In-store activation days	4	4	MET	Two niche perfumeries, two weekends.
Sales staff training	3	3	MET	14 sales staff trained on the house and its three fragrances.
Samples handed out	1,200	1,350	ABOVE · +150	During activations and in store, with the house card.
Discovery sets placed	60	48	BELOW · −12	Amber stock-out: incomplete sets for 9 days.
Content published	8	9	ABOVE · +1	Short formats, in English and Arabic.
Creators activated	4	3	BELOW · −1	One creator moved her post to month 5.
Event	1	1	MET	Launch evening in a concept store, 60 guests.

Planned: written into the scope at the start, agreed with the brand. Done: counted from visit reports and the shared calendar.

WEEK BY WEEK

WEEK 1

7 visits, 2 buyer meetings, staff training at perfumery A.

WEEK 2

6 visits; two activation days at perfumery A; evening at concept store C.

WEEK 3

7 visits, 2 buyer meetings; amber stock-out, points of sale informed the same day.

WEEK 4

6 visits, 1 buyer meeting; two activation days at perfumery D; 2 training sessions.

Stores visited this month

8 niche perfumeries, 3 concept stores, 2 department stores and 1 hotel boutique, i.e. 14 stores. Each visit has its report: who we saw, what was said, what comes next.

Every gap is explained, in writing

When a commitment is not met, the reason is written here, with what we are doing to catch up. Nothing is rounded up to look good.

02 · WHAT WE OBSERVED

Orders, reorders, *and what buyers say.*

Observations, not forecasts. Sales depend on the market; we report what we see.

Orders this month	Points of sale that ordered	Reorders	Bottles ordered
11	**6 of 9**	**4**	**214**
8 in month 3	9 active points of sale	2 in month 3	160 in month 3

WHAT SELLS

Bottles ordered this month, by fragrance

The white floral wins people over when tested but sells less: it will move better worn on skin, during activations.

AWARENESS

- 9 pieces of content published, 3 creators activated.
- 1 article in a local lifestyle magazine.
- 1,350 samples handed out, half of them during activations.
- 60 guests at the launch evening.

BY POINT OF SALE

POINT OF SALE	SINCE	ORDERS	REORDER	WHAT SELLS
Niche perfumery A	month 1	3	yes	the amber, the woody-leather
Niche perfumery B	month 1	2	yes	the amber
Concept store C	month 2	2	yes	the discovery set
Niche perfumery D	month 3	2	yes, the first	the amber, the white floral
Luxury e-commerce E	month 3	1	—	the woody-leather
Hotel boutique F	month 4	1	new account	the discovery set

Three other active points of sale (G, H, I) did not order this month. Names are replaced by letters in this example.

> *"The discovery set brings customers in. We need more before the holidays."*
>
> Buyer, niche perfumery A

> *"People like the white floral when they try it; it has to be shown on skin to sell."*
>
> Sales assistant, niche perfumery D

> *"Come back with three months of reorders from your retailers, and we will talk about a corner."*
>
> Buyer, department store

03 · DIFFICULTIES

What got stuck, *and what we did.*

The 100 ml amber out of stock at the logistics partner

FOR **9 DAYS**

WHAT WE DID

Points of sale informed the same day; sales steered towards the woody-leather; restock requested from the house. Impact: two reorders delivered late, 12 gift sets not placed.

WHAT WE NEED FROM THE BRAND

A safety stock at the logistics partner: decision 1, page 5.

A meeting postponed by the department store

POSTPONED **TO MONTH 5**

WHAT WE DID

Buyer file completed with perfumery reorders and feedback from sales staff. New date proposed by the buyer.

WHAT WE NEED FROM THE BRAND

Nothing for now. We will come back to you before the meeting with the final file.

An online reseller below the retail price

GAP **−12%**

WHAT WE DID

Dated price check and screenshots. Two points of sale had flagged it. Origin of the bottles to be established: likely parallel import.

WHAT WE NEED FROM THE BRAND

Decision 3, page 5.

04 · NEXT MONTH

ACTION	PLANNED	WHY
Point-of-sale visits	24	Including the three stores on the “to open” list.
Buyer meetings	6	Including the department store, postponed.
Activation days	4 + 2	The two extra days need approval: gifting season (decision 2).
Sales staff training	2	New sales staff in two stores.
Samples and sets	1,200 and 60	The sets, if amber stock keeps up (decision 1).
Content and creators	8 and 4	Including two pieces filmed with trained sales staff.

Next month's “to open” list

- **Niche perfumery J:** first meeting done, testers left; awaiting the buyer's answer.
- **Concept store K:** meeting booked in week 1. **Hotel boutique L:** presentation to schedule, on perfumery A's recommendation.

What we commit to: the work done. Orders and reorders are observed; they are not promised.

05 · DECISIONS FOR THE BRAND

Three decisions *that are yours to make.*

For each: the options, our view and the reply date. You decide; nothing is spent without your approval.

1 A safety stock of the 100 ml amber

A. Send a safety restock to the logistics partner. **B.** Keep the current pace and accept the risk of another stock-out.

OUR VIEW
A. The level is set with you, based on your production lead times.

REPLY BY THE
5th of the month

2 Two extra activation days during the gifting season

A. Both, in the two stores that reorder the most. **B.** Just one. **C.** None.

OUR VIEW
A. The brand's activation budget, approved before any spend and accounted for afterwards.

REPLY BY THE
5th of the month

3 The online reseller below the retail price

A. Establish where the bottles come from, then write to the reseller on behalf of the house. **B.** Wait for the next price check.

OUR VIEW
A, with your legal counsel for the letter.

REPLY BY THE
10th of the month

LAST MONTH'S DECISIONS, AND WHERE THEY STAND

MONTH 3 DECISION	STATUS
Discovery set in English and Arabic	Delivered; in place in five stores.
Same retail price on the online store	Done.

ATTACHED TO EVERY REPORT

Visit reports
One per visit: who, what, next steps.

Photos
Activations, shelves, testers in place.

Price check
In store and online, dated.

Active points of sale
The up-to-date list, with their dates.

What this report is not.

A promise of sales. We report on the work done, what we observe and what needs deciding. Activity targets are set together, within the scope.
